Re: LightSquared Matter - IB Docket No. 11-109

Dear Ms. Dortch:

I support both the strong public policy to provide more wireless broadband options and the efforts of LightSquared to work through the enormous task of establishing a national network covering 92% of America by 2015.

The resolve and commitment of LightSquared are positive testimony that America's best days are ahead if innovators and pioneers are not strangled by red tape.

I appreciate the level of accountability you require of LightSquared and the even handed regulatory approach you are taking in this matter. Continue the good work. I support LightSquared. God bless America.

Yours in service,
